

Silica . Optical Brighteners . Aluminium Pastes . Toners

Other Products

A rounding-out range of specialty additives: precipitated silica, optical brighteners, aluminium pastes, iron oxide and toning pigments.

Typical Properties

Parameter	Typical Value
Silica - SiO ₂ Content	>= 90%
Optical Brightener - Assay	>= 95%
Aluminium Paste - Metal Content	60-65%
Red Oxide - Fe ₂ O ₃ Content	>= 96%
Toner - Tinting Strength	100% (vs. standard)
Moisture (all grades)	<= 1.0%

Values shown are typical/indicative for the product family and are not to be construed as a specification. Confirm certificate-of-analysis figures for the specific batch/grade at time of order.

Available Grades

- 203F Shiv Silica
- Shiv Silica Spray Dryer-175
- OB 1 Optical Brightener
- OB Super Optical Brightener
- 7512 / 7535 Aluminium Paste
- Red Oxide 1225L / 445T
- Oil Red / Oil Red Super
- Rhodamine 54
- Rubine Toner

Recommended Applications

Packaging, Storage & Handling

Supplied in multi-ply paper/HDPE bags or drums as per grade (typical 25 kg net, other pack sizes on request). Store in a cool, dry, well-ventilated area away from direct sunlight and moisture. Keep containers closed when not in use. Handle with standard industrial PPE; consult the Safety Data Sheet (SDS) for full handling and disposal guidance.

Note: This sheet is a general product-family reference issued by Neo Plast Chem for buyer convenience. It is not a certificate of analysis. Figures are indicative/placeholder pending grade-specific lab verification and will be updated with certified values. For a batch-specific COA/SDS, or pricing and availability, contact our sales team.
